

Call for Papers

SNB Research Conference on Monetary Policy

The Swiss National Bank (SNB) will hold a research conference on monetary policy in Zurich on 3–4 October 2025.

The conference provides a forum for discussing a wide range of theoretical and empirical issues related to monetary policy. Topics of interest include (but are not restricted to):

- Inflation dynamics: expectations, shocks, tariffs and monetary policy transmission
- Robustness of monetary policy: uncertainty, misspecification, misperceptions
- Monetary policy instruments: optimality of mix, and balance sheet effects
- Artificial intelligence, economic growth and monetary policy
- Monetary policy transmission and financial stability
- Bank runs and lender of last resort

Presenters and discussants are also invited to attend the «Karl Brunner Distinguished Lecture Series» that will take place on 2 October 2025.

Those interested in presenting their work should send a PDF file with a draft of their paper to the organising committee at monetary.research@snb.ch by 19 March 2025. Please mention whether you would like your paper to be also considered for a poster session. Authors of accepted papers will be notified by the end of April.

Transportation and accommodation expenses will be covered for presenters and discussants from academic institutions. A conference volume will not be published. Past conference programmes can be found [here](#).

We look forward to receiving your paper submissions.

Organising Committee: Athanasios Orphanides (MIT), Carlos Lenz (Swiss National Bank), Marc-Antoine Ramelet (Swiss National Bank), Barbara Rudolf (Swiss National Bank), and Pascal Towbin (Swiss National Bank).
